Professional Summary

Innovative Full Stack Developer and AI Researcher with hands-on experience in building scalable web platforms, AI-driven systems, and cybersecurity-focused products. Strong background in designing end-to-end solutions covering frontend, backend, cloud infrastructure, and security. Proven leadership experience as a CTO in early-stage startups, with a deep focus on problem solving, performance optimization, and real-world impact.

Technical Skills

Programming Languages: Python, C, JavaScript, TypeScript, C++

Frameworks and Libraries: React.js, Next.js, React Native, Node.js, NumPy, Pandas

Tools and Platforms: Vercel, Supabase, Render, GitHub, Git, Google Cloud, Redis

Specialized Skills: Web Pentesting, Cybersecurity, UI and UX, Cloud Architecture, Backend And AI

Soft Skills: Critical Problem Solving, Multitasking

Professional Experience

CompetenceAI Ed Tech Pvt Ltd
CTO and Backend and AI Engineer
May 2025 to Present
• Leading backend architecture and AI research initiatives for an AI-powered education platform.
• Designing scalable APIs, data pipelines, and AI-driven assessment systems.
• Defining technical strategy and overseeing product scalability.

ClauseAI
Co-Founder and CTO
2025 to Present
• Leading technical architecture and AI systems for automated legal document analysis.
• Building scalable pipelines for clause extraction, risk detection, and AI-driven insights.
• Overseeing backend, AI integration, security, and infrastructure decisions.

Cipher Tools Hub
Founder and Full Stack Developer
Jul 2025 to Present
• Built and scaled a SaaS platform delivering cybersecurity and productivity tools.
• Owned complete product lifecycle from architecture to deployment and security.
• Designed modular systems supporting multiple independent AI and security products.

EverSincere Clothing
Backend Developer
Dec 2025 to Present

• Developing backend services to support e-commerce workflows.
• Improving system reliability, performance, and deployment pipelines.

Open Source Projects

Waymap Web Vulnerability Scanner
Aug 2024 to Present
• Creator and maintainer of a high-performance web vulnerability scanner.
• Built modular scanning architecture with deep security analysis capabilities.
